**NOT MADE WITH
natural rubber latex**

Please read the following instructions carefully and completely before use. Correct application is required to ensure proper function of the device.

Intended for single patient use.

WARNING: If your pain increases or persists or you experience any unusual reactions while using this product, consult your healthcare provider immediately.

APPLICATION INSTRUCTIONS

1. Unfasten straps and slide affected hand into brace (Figure 1). Ensure stockinette panel is located on the top of the hand.
 2. Position palmar stay firmly against the palm of the hand. (Figure 2).
 3. Thread wrist straps through matching links (Figure 3).
 4. Pull and wrap straps around the wrist. Secure each strap when desired fit and level of compression is reached (Figure 3).
- NOTE:** For braces with thumb support, wrap thumb strap around thumb and fasten (Figure 4).
5. Trim wrist straps leaving approximately 1" – 2" of overlap.
 6. Adjust straps as needed when swelling of the hand, wrist or thumb changes.

NOTE: Please refer to sew-in label on device for care instructions.
